

JOINT TUFTS/MIT COSMOLOGY SEMINAR

Naturalness of low energy de-Sitters in Einstein-Maxwell landscape

Ali Masoumi
Tufts

In the absence of gravity there is no reason to prefer a vacuum energy near zero. Here I present a model which has an accumulation of low energy de Sitter vacua.

Tuesday, November 26, 2013, 2:30 pm
Robinson Hall, Room 250
Tufts University

Refreshments at 2:00 in Knipp Library, Room 251
