

# JOINT TUFTS/MIT COSMOLOGY SEMINAR

---

*Doing BBN Better*

Hongwan Liu  
Boston University

Big Bang Nucleosynthesis (BBN) is a cornerstone of modern cosmology, providing us with invaluable information about our cosmological history. In this talk, I will discuss some recent and ongoing work aimed at bringing BBN fully into the era of precision cosmology.

Tuesday, February 10, 2026, 2:30 pm

574 Boston Ave, Room 310

Tufts University

Refreshments at 2:00 outside room 304
